- Identify and implement pre- and post-investment interventions to maximise the success of works, particularly those involving smart technology and data insights.
- Represent the customer voice by attending workshops, forums, and committee meetings, embedding a customer-obsessed culture in contract delivery.
- Design and deliver training and awareness sessions for both customers and colleagues to build understanding of investment works and their impact.
- Support the Asset Investment Manager in developing and maintaining strategic partnerships that contribute to Yorkshire Housing's wider business goals.
- Work collaboratively with Contract Managers, Compliance Teams, and Surveyors to ensure smooth project delivery and access arrangements.
- Provide practical and behavioural advice to help customers get the most from their homes, particularly following investment works.
- Ensure contractors, consultants, and suppliers deliver a customer-focused service and contribute to social value outcomes in areas of investment.
- Offer tailored support to vulnerable customers to enable safe and successful delivery of works and surveys.
- Proactively identify and implement solutions to prevent complaints and resolve issues before they escalate.

*As you can imagine, the above might not be all you'll be responsible for in role so you might be asked to take on some other key responsibilities if they're suitable for your role.*
